

LC. VARESE 4 "A. FRANK"

Pact of Educational Co-responsibility

SCHOOL – FAMILY

INTEGRATION TO COMBAT COVID-19

a) ATTENDANCE IN THE EDUCATIONAL INSTITUTION

The educational institution commits to:

- carry out organizational interventions, within the limits of its competences and with the resources available, aimed at mitigating the risk of spreading SARS-COV-2, and adopt the hygienic-sanitary requirements provided for by current legislation;
- organize and implement actions of information aimed at the whole school community and of staff training in order to prevent the spread of SARS-CoV-2;
- communicate any changes or additions to the provisions.

The family claims to be aware

- that her daughter/his son must comply with the health and hygiene instructions within the educational institution;
- not to be able to access, except for situations of proven emergency, to school, during the performance of the activities and in the presence of the students;
- that, at the time of a resumption of interaction activities, even if controlled, it is not possible to eliminate the risk of contagion, which instead must be reduced to a minimum through the scrupulous observance of the precautionary and safety measures provided (for this reason it is important to observe the utmost caution even outside the context of the educational institution).

The family commits to

- take note of the measures undertaken by the school to prevent and contain the spread of SARS COV-2 in this area;
- check daily the state of health of her child and other family members, daily measure body temperature. In the case of symptoms related to COVID-19 (fever with a temperature above 37.5 ° C, chills, cough, muscle pain, diarrhoea, loss of taste and or smell, breathing difficulties, nasal congestion...), keep your child at home and immediately inform their family doctor/paediatrician following the instructions and provisions;
- respect school indications, for example for the entry and exit of children, avoiding gatherings or unnecessary stays in front of school buildings;
- go immediately to school and pick up the student in case of sudden manifestation of symptoms related to COVID-19, aware that in case of onset of symptoms, the institute will isolate the student and immediately inform family members.
